All around great bike

This was my first mountain bike, but it is awesome! The bike is good for both streets and trails. I have ridden it on drops and rocks, and it handles it well. The bike looks really nice and I love the color. I go through grass, dirt, and gravel all the time and the bike works well. I think this is an amazing bike for beginners and even for some more advanced riders!

Diamond Back Bikes

Package shipped promptly and arrived damage free. Bikes are great on and off road. Off road the front shock absorber is excellent and the bike handles with ease.
